Construction Delays Possible at Kangaroo and Juanita Lake

YREKA, CA – Work will begin on September 14, 2010 to repair a culvert on the road to Kangaroo Lake. This construction will cause lengthy delays between 9:00 a.m. and 1:00 p.m. for a few days.

Also, recreation reconstruction work will begin on the east sidewalk to the fishing pier at Kangaroo Lake during the week of September 13, 2010. This side of the lake will be closed to public access until the work is completed on October 13, 2010. The south sidewalk to the concrete dock will still be available to the public during construction. The public should be aware that the lake will be impacted by the sights and sounds of construction activities throughout this project.

Siskiyou County, in partnership with the Klamath National Forest and the Prather Ranch, will be chip sealing the surface of the Ball Mountain/Little Shasta Road (7K03) leading from just south of the Goosenest Ranger District and Highway 97 to 2.5 miles west, towards Juanita Lake. One lane at a time will be resurfaced and the public can expect temporary delays during the day while work progresses.

For more information, please call the Klamath National Forest at 842-6131 for further information. Thank you for your cooperation while we make these important improvements.
